

Introducing  
**The New MX270 Access Platform  
From Event Plant & Access**

The New MX270 Truck-mounted Access Platform will be available for hire in Guernsey from late October 2008.

(Machine only available with operator)

This machine will offer up to  
**27m Working Height and  
13m Outreach**  
(13m out @ 11m high)

Both the booms on the machine are 3 stage telescopic, giving a vast working envelope whilst keeping the machine and chassis dimensions very compact. Fully deployed outriggers only require **2.96m** working width.

For further information please contact Steve Le Tissier
